Zaikin, V. G., and Mikaya, A. I., Mass spectrometry of bioorganic molecules containing small carbocycles, 479

Mass Spectrometry Reviews
Contents
Volume 3, 1984

Number 1, Spring 1984

Reactions of nucleophiles in the gas phase—the last decade: an overview
J. H. Bowie 1

Mass spectrometry of metal-organic negative ions
I. K. Gregor and M. Guilhaus 39

Retro-Diels–Alder reaction in mass spectrometry
F. Tureček and V. Hanuš 85

Selected reviews on mass spectrometric topics
H. Budzikiewicz 153

Instructions for Contributors 157

Number 2, Summer 1984

The formation and fragmentation of negative ions derived from organic molecules
J. H. Bowie 161

Signal-to-noise ratios in the measurement of low ion currents using electron multipliers
F. M. Harris, G. W. Trott, T. G. Morgan, A. G. Brenton, E. E. Kingston, and J. H. Beynon 209

Applications of mass spectrometry to polymers
H.-R. Schulten and R. P. Lattimer 231

Selected reviews on mass spectrometric topics
H. Budzikiewicz 317

Number 3, Fall 1984

Chemical ionization mass spectrometry of steroids and other lipids
Yong Y. Lin and Leland L. Smith 319

High-field-magnet mass spectrometry of biological molecules
Anne Dell and Graham W. Taylor 357

Mass spectra of tobacco isoprenoids
Curt R. Enzell, Inger Wahlberg, and Ragnar Ryhage 395

Selected reviews on mass spectrometric topics: Stereochemistry
H. Budzikiewicz 439

Instructions for Contributors 441

Number 4, Winter 1984

Mechanistic studies by field ionization kinetics
N. M. M. Nibbering 445

Mass spectrometry of bioorganic molecules containing small carbocycles
V. G. Zaikin and A. I. Mikaya 479

Applications of high-performance mass spectrometry to the surface analysis of materials
D. Schuetzle, T. L. Riley, J. E. deVries, and T. J. Prater 527

Selected reviews on mass spectrometric topics
H. Budzikiewicz 587

Author Index to Volume 3 589

Instructions for Contributors 591
